Planting & Caring for your Vertical & Saddlebag Gardens:

About 6-8 weeks before the last anticipated frost, start your seeds in small pots or open flats with good drainage. Keep seedlings moist and warm (but not wet), at all times. When your seedlings are 1-2" tall and have formed good roots, lay the bag flat, fill with potting soil and transplant your plants into the openings provided in the bag.

Family Fun from Start to Finish...

D CHERRY TOMATO Hanging Garden \$12

No garden needed. Our vertical garden bag turns any sunny wall or fence into a place to grow tomatoes. The lush, hanging foliage is decorative throughout the summer and then you harvest ripe, juicy cherry tomatoes for salads or snacking. Everyone Loves our Seed Mats...

G SHADY ANNUAL TREE RING \$10

Beautify the area surrounding your trees with this easy-to-plant seed mat ring. Simply work up the ground around the base of your tree, lay the mat in position, lightly cover with soil and in just a few weeks you'll have a wonderful collection of shade-loving flowers. As shown above, this dramatically improves the appearance of trees in your yard and helps maintain moisture for your tree.

H SUNNY TREE RING \$10

Our custom sun-loving tree ring mix includes a profusion of colours in pink, orange, rose, mauve, blue-Violet, purple, white, blue, yellow, & red flowers blooming throughout the summer. Flowers range in height from four to twelve inches. Complete care instructions included. Flower mat measures 17" x 5' long.

SEED MATS: AS SIMPLE AS 1..2..3...

There's no easier way to either start a gardening hobby or to fill your yard with wonderful flowers than to plant our amazing seed mats. Always a very popular item in this catalogue, gardeners across the country love how easy and maintenance-free this planting method has become.

Simply plant in spring after the last danger of frost. Select an area that has at least 4-6 hours of sunlight and work up your garden soil to a depth of between 3 and 4 inches in an area that's the same size as your seed mat. Carefully lay out the mat with the words "This Side Up." Cover the mat with no more than 1/8" of soil. This will help hold the mat down and allow the seeds to easily germinate. Soak the mat entirely (being careful to use a fine spray) until the mat is saturated and appears to melt into the soil. Continue to keep the mat moist until your new plants are established (2-3" in height). CHECK DAILY that the top 1" of soil is moist.

You don't need to leave your seed mat as one long border. You may cut it up into different shapes and spread it out. There is no wrong way... it's up to you. Each mat measures 17" wide by 5' in length.

Some flowers will bloom in poor soils but most will benefit from some fertilizer. If your soil needs to be improved, use a low nitrogen fertilizer with a 5-10-10 ratio or add organic matter to your soil. Keep in mind, OVER fertilizing can promote weeds and lush foliage instead of flowers.

Seed Mats are Easy & Fun to Plant...

I HONEY BEE SEED MAT \$10

Give new life to your garden... and Honeybees, too. Bee populations have been declining and you can be part of the solution with our special seed mixture. It's packed with flower varieties specially selected for their ability to attract bees. This makes the bees' work a little easier and reduces stress in their hives. Best of all, you'll be treated to a summer-long spectacle of brilliant colour, delightful form and enticing fragrance.

J BUTTERFLY GARDEN SEED MAT \$10

Our easy to plant Butterfly Garden Flower Mat will attract multitudes of butterflies with this colourful blend of cornflowers, cosmos, coreopsis, marigold, zinnia and more.
